

Worksheet 8.7A

Changing rocks – assessment for learning (writing)

This is a writing exercise.

Explain how sedimentary, igneous and metamorphic rocks are formed. Explain how these processes fit together.

Assess your partner's work using the tables below.

Feature	Yes or no?
Has the formation of sedimentary rocks been explained?	
Has the formation of igneous rocks been explained?	
Has the formation of metamorphic rocks been explained?	
Has an idea of the timescales involved been given?	
Has an overall plan of the processes been outlined?	
Have ideas about weathering been included?	
Have ideas about transportation of rocks been included?	
Have ideas about deposition of rocks been included?	
Does the explanation cover all the steps?	

Describe one thing that your partner has done well.	
Describe one thing that your partner could improve.	

Now look at your own work. Do you agree with your partner's assessment?
