WHEN TO USE FUTURE SIMPLE PASSIVE

We use Future Simple Passive for actions or events that will happen in future(tomorrow, next week, in 2023). Unlike the Future Perfect Passive, there's no deadline here. In such statements we focus attention on the person or thing affected by the action, when the subject is unknown, unclear or irrelevant.

EXAMPLES

- **Active - The company will build the bridge next year.**

  Passive - The bridge will be built next year.

- **Active - They will publish the book next year.**

  Passive - The book will be published next year.

-In these examples, the focus is on the effect of the future action, it's not important who will perform the action.
